

## FIBER OPTIC TERMINAL BOX

### OTB 12 PORT BOX TYPE-ABS PLASTIC INDOOR LOADED

Model: FC-44-OTB-P12

#### Product Overview

The FiberCore FC-44-OTB-P12 is a fiber optic terminal box designed for efficient distribution and terminal connection in optical fiber systems. Ideal for mini-network terminations, it supports seamless integration of optical cables, patch cords, and pigtails within a compact and reliable enclosure.

#### Features

- Supports up to 12 fiber terminations (SC simplex) or 24 fiber terminations (LC duplex)
- Supports SC simplex or LC duplex adapters
- Made of high-strength ABS plastic, UV-resistant and weatherproof
- Integrated splice tray for efficient splicing and fiber management
- Rubber sealing gasket for dustproof and waterproof protection (IP65 rating)
- Suitable for indoor and outdoor wall/pole mounting
- Cable entry ports with cable glands for secure and reliable installation
- Supports input cable diameter: 7–14 mm

#### Applications

- FTTH (Fiber to the Home) distribution and termination
- FTTB (Fiber to the Building) fiber access point
- LAN and data communication networks
- Drop cable to pigtail/patch cord termination interface
- Residential, office, and enterprise fiber installations

## FIBER OPTIC TERMINAL BOX

### OTB 12 PORT BOX TYPE-ABS PLASTIC INDOOR LOADED

Model: FC-44-OTB-P12

#### Accessories

- Integrated splice tray
- SC adapters (12 pcs)
- Fiber splice holders
- Cable glands (main cable entry)
- Cable fixing clamps / holders
- Dust caps for adapters
- Installation kit (screws, wall plugs, mini cable ties, Allen wrench)

#### Technical Specifications

Dimension	Material	Color	Adapter Port	Max. qty of splice tray	Max. capacity of splice tray	Fiber Type	Mounting
150x280x40 mm	ABS Plastic	Black	12pcs SC simplex	1	1	SM or MM	Wall-mounted

#### Ordering Information

Description	Part No.
OTB 12 Port Box Type-ABS Plastic Indoor Loaded	FC-44-OTB-P12
